Story of Baytaş

Story of Baytaş started in 1996, Ankara, Turkey. Following years Baytaş has become a leading company through the LED sector based on the motto, “RE-CREATE YOUR COLOURS” since 2003.

‘Bayled is one of the brands of Baytaş Group’ Taking extreme care in manufacturing only the registered products elaborately designed by us, our company continues to increase its number of products and to increase its customers trust. Bayled exports the Reliable Products manufactured to many countries in Asia, Europe, the Middle East and Africa. Taking extreme care in manufacturing only the registered products elaborately designed by us, our company continues to increase its number of products and increase its customer’ trust. We continue to increase our efforts in our R&D department to produce flawless moulds using latest technology CNC machining centres, plastic extrusion machines, as well as high accuracy universal machine tools.

Design Support

BAYLED is the partner you can rely upon.

We believe that selling a product means offering a value that goes beyond the product itself, and integrates information, consulting and assistance.

We make our lighting technique, present our advanced lighting systems and control possibilities all together in the best way our technical project design specialiss within our body.

Our Design Team always ready to help you to imagine your projects.

Project Stages

* ANALYSIS:

Determining what will be done.

* PLANNING:

Determining when it will be done with how much cost.

* DESIGN:

Conceiving the structure to be established.

* APPLYING:

Realizing plans to reach the target in the most correct way.

Our strengths

BAYLED is one of the leading lighting groups in Turkey.

We have a deep knowledge of light and its effects on humans.

We have a wide range of high quality products.

We are a supplier of exterior lighting solutions.

Our deliveries are quick and reliable.

We offer professional and long term support and partnership.

Custom made solutions

CRM

ERP

We provide minimum error and maximum customer satisfaction with our CRM-ERP systems.

SALESFORCE

Our high quality products and minimum error and maximum customer satisfaction is our main policy.

URBAN LIGHTING

Al Khor Corniche opens

Mar 26, 2018 10:00 AM

5 stars

Tribune News Network
Doha

The Public Works Authority (Aqdhaf) on Monday opened the first and second zones of Al Khor Corniche Development Project to the public after the completion of the main works. The third and final zone will be opened during the first half of Ramadan.

The project includes replacing the pedestrian walkway floor, which was made of concrete, with 22,500 square metres of granite and interlock with different designs, shapes and colours to give the Al Khor Corniche a distinctive aesthetic character.

Granite has special characteristics that resist the weather conditions on the beach.

The children's play area will be completely renovated and three new areas will be added. The play areas will open to the public within two months.

In addition, 250 seats and 40 pergolas will be provided as part of the project. The public toilets will be fully renovated and new facilities will be added for people with special needs. Al Khor Corniche project includes planting trees and providing 6,000 square metres of green space.
